Monty is a delightful corporate coach who can take in the complexities of a family business and transform it into a slick and well-oiled machine, working like a large multinational business might. His systems theory is easy to understand and everything fits to horizontally and vertically align the vision of the business with outcomes that you want to have occurred at the "coal face". We would highly recommend Monty to your family business.

Dr. Angela Todd, BAppSci (Chiro) Grad Dip (Chiro Paed), CEO Todd Clinics, Sale, Victoria

Sacher Associates helps organisations to achieve best practice levels of productivity, performance and quality of working life improvements. We do this, by implementing total performance systems solutions. Established for over 25 years, we have worked in in many industries, and in over 20 countries.

Performance Measures Applied

A potent system for measuring and managing performance: individual performance, team performance and organizational performance. With case studies and examples from both the private and public sectors this is a practical book that enables you to build a performance measurement system that you can implement without delay. Formulated in the engine rooms of industry – on shop floors and in board rooms – Performance Measures Applied is a performance strategy which comes from years of experience working with people who are the backbone of the business – workers, team leaders and managers. It is a jargon-free, practical guide, a tried and tested pathway to measurable, definable performance improvement. The ‘back to basics’ formula presented in this book, works in product, service or public sector environments alike, in small and large organizations, within divisions and across companies and locations.

“This is what we need: consultants who can tell us HOW to solve our problems.” – Mossman Central Mill Co.

“In my view, Performance Measures Applied is the single most important development work our company has or will undertake for a long time.” – Angliss Pacific Limited

“The business had been set a difficult profit target and the continuing economic downturn, resulting in reduced revenue, reinforced this situation. The business was able to meet its profit target and return an 11 percent improvement on this target which, in financial terms, amounts to several millions of dollars.” – South Eastern Power

“Monty Sacher, one of the nation’s foremost business consultants, is a quiet achiever in the engine rooms of top Australian companies, improving planning, productivity, and performance.” – Di Sullivan (The Skills Centre)

Monty is an organisational and management expert. I do not use this word lightly. What he doesn't know about Change Management and the role of Culture in developing successful business outcomes is not worth knowing. He has delivered increased productivity and profits in some of Australia's toughest work environments. Regularly reviewed in BRW, Monty has passion for what he does and it is positively infectious.” Gene Stark, The Marketing Network
