– Di Sullivan (The Skills Centre)

“Monty is an organisational and management expert. I do not use this word lightly. What he doesn’t know about Change Management and the role of Culture in developing successful business outcomes is not worth knowing. He has delivered increased productivity and profits in some of Australia’s toughest work environments. Regularly reviewed in BRW, Monty has passion for what he does and it is positively infectious.”

– Gene Stark, The Marketing Network

“Sacher is now considered one of the world’s leading lights when it comes to managing performance in organizations”

– The Corporate Manager

“Monty is a delightful corporate coach who can take in the complexities of a family business and transform it into a slick and well-oiled machine, working like a large multinational business might. His systems theory is easy to understand and everything fits to horizontally and vertically align the vision of the business with outcomes that you want to have occurred at the “coal face”. We would highly recommend Monty to your family business.
